Dear Dr. McCallister:

Could you kindly send me three copies of any information on your programs which award grants, fellowships, or other research support?

If your organization requires special application forms, or has application guidelines, I would also appreciate receiving those.

I am asking for multiple copies because my office functions as the centralized information resource for an entire research foundation. I hope that by coordinating information requests in this way I can minimize duplication of requests and inconvenience to your organization.

No investigator will be given these materials unless it is determined that his/her research interests are in line with the interests of your organization.

Thank you for your help in this matter.

Sincerely yours,

Diana Abramo
